## CHECK VALVES cartridge type

**CV081- ..**

| Type  | Q <sub>nom.</sub> | P <sub>max.</sub> | Opening pressure of the check valve | Tightening torque |
|-------|-------------------|-------------------|-------------------------------------|-------------------|
|       | L/min             | bar               | bar                                 | Nm                |
| CV081 | 35                | 350               | 0.5                                 | 35                |

All performances and calibration are carried out by using hydraulic oil with viscosity approx. 46 cSt at 50 °C  
Temperature range: -20°C...+80°C  
Filtration absolute: 63  $\mu$ m

## ORDERING CODE

**CV081**

Type

Opening pressure - code:  
**0.5 bar - Omit**
